## PRESBYTERIAN SHARING

### New Ways to Nourish Families

Who better to learn new farming methods from than a farmer in your community? Through a Presbyterian World Service & Development-supported farmer-to-farmer agroecology project in Malawi, farmers selected for training are able to share their agricultural knowledge with other families in their village. Techniques like composting and intercropping are helping women and men transform plots of land into thriving sources of nourishment. Since learning to plant groundnuts and pigeon peas together on one plot of land, farmer Abel has seen his soil's fertility improve and his yields double. He and his wife Mercy are incorporating the food they grow into new recipes. "Life has greatly changed for us," shares Abel. *PWS&D supports food security for smallholder farmers*

## From Rev. Joyce,

Oh my! Another year come and gone and peering into the next! Years ago my dad said to me that the older I got the faster the years would go by, and so far that has proven to be true. It may be the same number of 365 days, but I am sure that light speed is slowly overcoming the regular speed of the earth's orbit around the sun. For another year, I did not nearly meet my hopes and expectations to visit more people and to visit more often. Thank you cards went unwritten. I missed making some birthday and anniversary phone calls. And I didn't manage to take care of myself in the manner that I knew would be best on a regular basis.

Still, I did enjoy many visits, spent time with individuals and families who were struggling with life issues, or celebrating milestones. I did make many phone calls, and sent off a few cards. I did spend time learning about myself, and achieved a few personal goals. And I got to know many people even better than before, both in the congregation and people who walk with me in other circles.

What I have come to understand as the years pass is there is so much to learn about myself and so much I would like to change, but in this I have learned that life is a journey. I don't make New Year's resolutions, as each day I strive to pay attention to the ways that God is calling me to grow, change, and challenge myself. I don't live everyday as well or perfectly as I might hope, but I have learned to celebrate what is good each day, and see the challenges as growing edges rather than disappointments.

I am grateful for the grace shown me, the forgiveness granted to me, and the love outpoured. Thank you, St. Andrew's, for being willing to walk with me as I grow, learn, and journey. Happy New Year.
