## From Rev. Joyce,

Responding! Restoring! Rejoicing! These words are ones that have been rolling around in my mind since 2015 but they did not come from me. When we were planning our celebration service to re-dedicated the sanctuary, words similar to these were shared with me by an elder on Session and the words stuck. We originally used "Restoring, Renewing, Rejoicing" for that service, but with time and consideration by the Session we settled on the current configuration. It is valuable to have a concise way of evaluating our current ministry and planning future ministry, as well as to have words that might quickly come to mind when we think how and why we do what we do here at St. Andrew's. These words came out of the fact that we responded to a crisis of our building, restored it, and then rejoiced. We continue this work as we are able each year so that this building continues to bring glory and honour to God. Still, our Christian faith demands more than our commitment to a building, we are called to respond to the needs of people, restore people to relationship with God, themselves, and to community, then rejoice in the blessing and wonder of God working through us and in the world. May God add a blessing to our desire and work to be a congregation that is Responding!

## PWS&D MISSION MOMENT

**Winter in War-Torn Syria.** With Syria facing its seventh year of conflict, the humanitarian situation in the country continues to deteriorate. Caught in the middle of a war zone in central Syria, Rabeha was living a nightmare. Her brother had been killed and her mother lost her legs when the family's home was destroyed. Rabeha's father suffered a stroke that left him paralyzed. Unable to secure a job, Rabeha couldn't afford food, medicine for her parents or heat for the winter. The family endured cold, hungry nights before they enrolled in a Presbyterian World Service & Development food aid project with Canadian Foodgrains Bank. Now that her family receives food baskets, Rabeha is saving money for other needs and was able to face the harsh winter with greater peace of mind. *PWS&D responds to families displaced by conflict.*

## PIPE ORGAN FUNDRAISING!

This Casavant Pipe Organ was originally installed in 1909, rebuilt in 1929 to change from Tubular Pneumatic to electro-pneumatic, add trombone, and add a roll-top console case. Recognized in 2006 as a historical instrument worthy of citation, now in need of maintenance to make sure it continues for another 100 years. Our goal is **\$20,000** dollars, and we need your help!
