## From Joyce

Wednesday February 26th marks the beginning of Lent for 2020. Lent is the forty days before Easter. This does not include Sundays. It is a time of reflection and preparation for Easter. It is a wonderful opportunity to focus on a spiritual practice such as prayer, meditation, works of charity, or just taking time to breathe, take in God's creation, and spend time with God beyond what one might normally do. It is about recognizing the gift of Jesus Christ. For some, Ash Wednesday can be an important opportunity to begin that focus or spiritual practice.

St. Andrew's will be having a service of worship at 7:00 pm on Ash Wednesday in the sanctuary. It is a more contemplative worship than one would normally experience on a Sunday morning. During the worship service there are opportunities to interact with the different aspects of the service or just take it in. You can choose to have a mark of ashes placed on your forehead or remain seated; both are equally acceptable ways to experience what is being offered. If you have never attended an Ash Wednesday service let me encourage you to consider it this year. This particular service is also one designed for children through to the more elderly of us. Come and see. Come and worship.

## A PCC MISSION MOMENT

### Screening for health in Somalia

Samsam, a mother of five, lives in a community in Somalia where access to food is a consistent struggle and many people are malnourished. Samsam jumped at the opportunity to join a PWS&D-supported program to learn about nutrition for infants and young children. Through this program, she discovered a simple trick for determining whether a child or mother is malnourished: taking a measurement near the top of their arm. Now, by helping community members screen for malnutrition, Samsam is making sure that people in her village are receiving the care that they need. This program demonstrates the multiplying effect of enabling communities to help themselves. With 1,540 people trained on how to measure malnutrition in this way, over 15,000 children and 5,000 women have been screened so far.
